## *The Evidential Medium*

### *Healing one heart at a time*

No one ever said living this earthbound life would be easy... We are faced with challenges every day that can test our heart, our faith, and leave us feeling empty, wondering why things happen the way they do. Even with my abilities, I don't have all the answers, but maybe, I can help.

An Intuitive Medium has the ability to speak with your loved ones that have passed and perceive the events and energy around you to help provide you with some much needed guidance.

### *This is My Story...*

Even as a child, maybe as young as 7, I always knew I was different from other children my age, and other people in general. I never quite fit in. I think I always knew that I had a sixth sense ability; psychic and intuitive. I would have psychic dreams, see shadow people (spirits apparently), feel other people's emotions and have premonitions that would come true; like, picking up the telephone before it rang and knowing it was my best-friend. Or meeting someone I've never met before and instinctively know and say their name... out loud even! The feeling of "Deja-vu" is a constant within my life.

### *Training*

I have had the honor and the pleasure of studying under some of the most admired and talented Mediums, and Tarot Card Readers from all over the world that have been helping to push my abilities and studies.

When it comes to an Intuitive or Psychic reading I will tune into the energy around you, your aura, and the universe. I may receive information automatically when you sit down, or with regards to a specific question you may ask by either seeing it, hearing it, feeling it, or just knowing it.

Mediumship works a bit different. Mediumship is a partnership. Spirit and the Medium work together to bring forth relatable facts as evidence along with messages from the departed that are on the other side. Neither Spirit nor the Medium can accomplish this without the other very effectively. In fact, without you, your energy and presence, spirit and your loved ones would not have any reason to blend with the Medium.

So, it's important to remember that to accomplish a Mediumship reading is a 3 way conversation, and the Medium is only the translator. I look forward to connecting with your loved ones to bring forth their messages of their Love and Healing.
